

**IN THE UNITED STATES PATENT  
AND TRADEMARK OFFICE**

#3

Reissue Application No. 09/512,592)

United States Patent No. 5,806,063

Issued: September 8, 1998

Applicant: Dickens-Soeder2000, LLC

Group Art Unit: 2771

Examiner: Wayne Amsbury

Attorney Docket No.: 2039-301

**INFORMATION DISCLOSURE STATEMENT**

Honorable Commissioner of Patents and Trademarks  
Washington, D.C. 20231

RECEIVED  
FEB 23 2000  
REEXAM UNIT

Dear Sir:

Pursuant to 37 C.F.R. §1.97, the Applicant in the above referenced Reissue Application submits the following disclosure statement and the accompanying documents.

The Applicant has not caused a comprehensive search to have been made concerning the inventions disclosed and claimed in the above referenced Reissue Application, but has had brought to its attention or to its predecessor's and or counsel's attention, since the patent issued, various patents and other materials asserted to be prior art references, including submissions by two anonymous submitters in the co-pending Reexamination of the above referenced patent and by a separate petitioner for Reexamination of the above referenced patent, and various listings of asserted prior art on various sites on the Internet. In an abundance of caution, Applicant has made an effort to collect as many as possible of these asserted prior art references and, after removing duplicates, submits them here. By such submission, applicant does not necessarily agree

or concede, or waive in any way its right to contest, that any patent or other printed material is a proper prior art reference, including such considerations as the effective date of any supposed reference vis-à-vis its status as a prior art reference and/or whether or not any such supposed reference otherwise qualifies as, e.g., a public use or printed publication, or otherwise meets in any way any other requirement for constituting a proper prior art reference to the inventions disclosed and claimed in the Reissue Application. This submission does include, however, those patents and printed publications that the Applicant presently knows of and believes to be proper prior art references to the inventions disclosed and claimed in this Reissue Application, and all copies of documents other than U.S. Patents that Applicant presently possesses.

Applicant also submits along with this statement PTO forms SB/08A and SB/08B.
